

SUPER IMPACT GREASE

- Last longer than many conventional greases.
- Will not pound out.
- Performs up to 550 Deg. F.
- Excellent load carrying capability - 65 Timken Load.
- Superior water resistance.
- Special rust and corrosion inhibitors.
- Resists most acids, weather, dirt, steam and oxidation.

DESCRIPTION

This product is a multi-purpose grease fortified with special additives enabling it to withstand the heavy impact and pounding pressures common to heavy equipment. Our special additive package allows the grease to stay in place and not to spatter or pound out of the bearing or fitting. Most greases manufactured today do not have this anti-spatter capability.

PUMP IN SUPER IMPACT GREASE UNTIL ALL OLD GREASE COMES OUT

COMPOSITION

This product contains extreme pressure additives to provide long life under heavy loads up to 65,000 PSI - 65 Timken load. This grease will withstand temperatures up to 550 Deg. F. It has superior water resistance and resists most acids, salt spray, steam, dirt, dust and weather. We have also blended extra rust, corrosion and oxidation inhibitors into this product. You now have a grease that not only resists high temperatures and heavy loads, but also provides extra protection of equipment with its superior anti-spatter capabilities. A true long lasting product that can replace many commercially available greases.

CAUTION

Do not ingest. If this should occur, drink large volumes of water and seek medical attention. Avoid storage of product in freezing temperature. Keep container sealed when not in use. Rinse empty container before discarding in an authorized landfill site. **KEEP OUT OF THE REACH OF CHILDREN**
